CLINICAL AND EXPERIMENTAL IMMUNOLOGY

CONTENTS

Vol 97 No 1 July 1994

F. M. BRENNAN: Role of cytokines in experimental arthritis 1

G. GIANNELLI, G. ANTONELLI, G. FERA, S. DEL VECCHIO, E. RIVA, C. BROCCIA, O. SCHIRALDI & F. DIANZANI: Biological and clinical significance of neutralizing and binding antibodies to interferon-alpha (IFN-α) during therapy for chronic hepatitis C 4

D. M. FISHWILD, H.-M. WU, S. F. CARROLL & S. L. BERNHARD: Characterization of the increased cytotoxicity of gelonin anti-T cell immunoconjugates compared with ricin A chain immunoconjugates 10

F. SILVESTRIS, P. CAFFORIO & F. DAMMACCO: Pathogenic anti-DNA idiotype-reactive IgG in intravenous immunoglobulin preparations 19

A. C. ISSEKUTZ, A. MEAGER, I. OTTERNESS & T. B. ISSEKUTZ: The role of tumour necrosis factor-alpha and IL-1 in polymorphonuclear leucocyte and T lymphocyte recruitment to joint inflammation in adjuvant arthritis 26

A. G. M. VAN DE LANGERIJT, P. L. E. M. VAN LENT, A. R. M. M. HERMUS, C. G. J. SWEEP, A. R. COOLS & W. B. VAN DEN BERG: Susceptibility to adjuvant arthritis: relative importance of adrenal activity and bacterial flora 33

K. L. SUMMERS, J. L. O'DONNELL & D. N. J. JART: Co-expression of the CD45RA and CD45RO antigens on T lymphocytes in chronic arthritis 39

G. M. G. M. VERJANS, B. M. N. BRINKMAN, C. E. M. VAN DOORNIK, A. KIJLSTRA & C. L. VERWEIJ: Polymorphism of tumour necrosis factor-alpha (TNF-α) at position −308 in relation to ankylosing spondylitis 45

D. J. PUDIFIN, J. DUURSMA, V. GATHIRAM & T. F. H. G. JACKSON: Invasive amoebiasis is associated with the development of anti-neutrophil cytoplasmic antibody 48

B. E. P. B. BALLIEUX, K. T. ZONDERVAN, P. KIEVIT, E. C. HAGEN, L. A. VAN ES, F. J. VAN DER WOUDE & M. R. DAHA: Binding of proteinase 3 and myeloperoxidase to endothelial cells: ANCA-mediated endothelial damage through ADCC? 52

M. C. ALDHOUS, K. C. WATRET, J. Y. Q. MOK, A. G. BIRD & K. S. FROEBEL: Cytotoxic T lymphocyte activity and CD8 subpopulations in children at risk of HIV infection 61

A. M. GÓMEZ, F. M. SMAILL & K. L. ROSENTHAL: Inhibition of HIV replication by $CD8^+$ T cells correlates with CD4 counts and clinical stage of disease 68

M. DENIS & E. GHADIRIAN: *Mycobacterium avium* infection in HIV-1-infected subjects increases monokine secretion and is associated with enhanced viral load and diminished immune response to viral antigens 76

T. G. EVANS, K. RASMUSSEN, G. WIEBKE & J. B. HIBBS JR: Nitric oxide synthesis in patients with advanced HIV infection 83

A. GABRIELLI, A. MANZIN, M. CANDELA, M. L. CANIGLIA, S. PAOLUCCI, M. G. DANIELI & M. CLEMENTI: Active hepatitis C virus infection in bone marrow and peripheral blood mononuclear cells from patients with mixed cryoglobulinaemia 87

Y. MA, M. PEAKMAN, A. LOBO-YEO, L. WEN, M. LENZI, J. GÄKEN, F. FARZANEH, G. MIELI-VERGANI, F. B. BIANCHI & D. VERGANI: Differences in immune recognition of cytochrome P4502D6 by liver kidney microsomal (LKM) antibody in autoimmune hepatitis and chronic hepatitis C virus infection 94

J. N. HIGGINBOTHAM & S. B. PRUETT: Assessment of the correlation between nitrite concentration and Listericidal activity in cultures of resident and elicited murine macrophages 100

J. M. BLACKWELL, C. W. ROBERTS, T. I. A. ROACH & J. ALEXANDER: Influence of macrophage resistance gene *Lsh/Ity/Bcg* (candidate *Nramp*) on *Toxoplasma gondii* infection in mice 107

L. M. SINGER-VERMES, E. BURGER, V. L. G. CALICH, L. H. MODESTO-XAVIER, T. N. SAKAMOTO, M. F. SUGIZAKI, D. A. MEIRA & R. P. MENDES: Pathogenicity and immunogenicity of *Paracoccidioides brasiliensis* isolates in the human disease and in an experimental murine model 113

R. J. YASSIN & A. S. HAMBLIN: Altered expression of CD11/CD18 on the peripheral blood phagocytes of patients with tuberculosis 120

S. A. SHARMA, G. G. MILLER, G. I. PEREZ-PEREZ, R. S. GUPTA & M. J. BLASER: Humoral and cellular immune recognition of *Helicobacter pylori* proteins are not concordant 126

B. GLODDEK, M. ROGOWSKI & W. ARNOLD: Adoptive transfer of an autoimmunological labyrinthitis in the guinea pig; animal model for a sympathetic cochleolabyrinthitis 133

P. SAÏ, O. SENECAT, L. MARTIGNAT & E. GOUIN: Neonatal injections of cyclosporin enhance autoimmune diabetes in non-obese diabetic mice 138

M. L. X. FU, G. WALLUKAT, Å. HJALMARSON & J. HOEBEKE: Characterization of anti-peptide antibodies directed against an extracellular immunogenic epitope on the human α_1-adrenergic receptor 146

M. B. PEPYS, S. E. BOOTH, G. A. TENNENT, P. J. G. BUTLER & D. G. WILLIAMS: Binding of pentraxins to different nuclear structures: C-reactive protein binds to small nuclear ribonucleoprotein particles, serum amyloid P component binds to chromatin and nucleoli 152

A. K. Lang & R. F. Searle: The immunomodulatory activity of human amniotic fluid can be correlated with transforming growth factor-beta1 (TGF-β1) and β2 activity 158
J. M. Brewer, J. Richmond & J. Alexander: The demonstration of an essential role for macrophages in the *in vivo* generation of IgG2a antibodies 164

Vol 97 No 2 August 1994

R. S. Pereira: Cardiolipin, coagulation, co-factors and connective tissue disease 173
L. F. Pereira, F. M. Marco, R. Boimorto, A. Caturla, A. Bustos, E. G. De La Concha & J. L. Subiza: Histones interact with anionic phospholipids with high avidity; its relevance for the binding of histone–antihistone immune complexes 175
J. Cohen, R. Bakimer, M. Blank, G. Valesini & Y. Shoenfeld: Pathogenic natural anti-cardiolipin antibodies: the experience from monoclonal gammopathy 181
I. Yron, L. Shohat, J. Lahav, I. P. Witz & B. Fisch: A human monoclonal IgA autoantibody—185/12—behaves like an autoimmune antiphospholipid antibody 187
M. Ohta & N. Sato: The cytotoxic analysis of T cell receptor Vδ1$^+$ T cell lines derived from the synovial fluid of rheumatoid arthritis patients 193
A. Schrauder, A. Gause, W. Jung, R. Mierau & M. Pfreundschuh: Persistence of a rheumatoid factor (RF)-producing B cell clone with a somatically mutated Igκ chain in a patient with rheumatoid arthritis 200
L. A. B. Joosten, M. M. A. Helsen & W. B. van den Berg: Accelerated onset of collagen-induced arthritis by remote inflammation 204
K. M. Kadowaki, H. Matsuno, H. Tsuji & I. Tunru: CD4$^+$ T cells from collagen-induced arthritic mice are essential to transfer arthritis into severe combined immunodeficient mice 212
H. Inoue, M. Takeuchi, T. Tanaka, M. Usui, S. Ando & O. Taguchi: Analysis of the uveitogenic determinant in repeat structure of retinal interphotoreceptor retinoid-binding protein (IRBP) 219
M. R. Stanford, E. Kasp, R. Whiston, A. Hasan, S. Todryk, T. Shinnick, Y. Mizushima, D. C. Dumonde, R. Van Der Zee & T. Lehner: Heat shock protein peptides reactive in patients with Behçet's disease are uveitogenic in Lewis rats 226
P. Aukrust, F. Müller & S. S. Frøland: Enhanced generation of reactive oxygen species in monocytes from patients with common variable immunodeficiency 232
A. S. Bansal, M. R. Haeney, S. Cochrane, R. S. H. Pumphrey, L. M. Green, M. Bhavnani & P. B. Wilson: Serum soluble CD23 in patients with hypogammaglobulinaemia 239
M. T. R. Clayer, P. A. Drew, A. S.-Y. Leong & G. G. Jamieson: IgG-mediated phagocytosis in regenerated splenic tissue 242
A. Vecchiarelli, A. Siracusa, C. Monari, D. Pietrella, C. Retini & C. Severini: Cytokine regulation of low-affinity IgE receptor (CD23) on monocytes from asthmatic subjects 248
C. T. M. Van Der Pouw Kraan, R. C. Aalberse & L. A. Aarden: IgE production in atopic patients is not related to IL-4 production 254
A. Carr, E. Vasak, V. Munro, R. Penny & D. A. Cooper: Immunohistological assessment of cutaneous drug hypersensitivity in patients with HIV infection 260
E. Medina, N. Borthwick, M. A. Johnson, S. Miller & M. Bofill: Flow cytometric analysis of the stimulatory response of T cell subsets from normal and HIV-1$^+$ individuals to various mitogenic stimuli *in vitro* 266
A. L. Smith, M. E. Rose & D. Wakelin: The role of natural killer cells in resistance to coccidiosis: investigations in a murine model 273
G. Vitale, C. Mocciaro, R. Malta, G. Gambino, A. Spinelli, C. Giordano, G. Stassi, F. Arcoleo, S. Milano & E. Cillari: Evaluation of serum levels of soluble CD4, CD8 and β_2-microglobulin in visceral human leishmaniasis 280
H. Perlmann, H. Helmby, M. Hagstedt, J. Carlon, P. H. Larsson, M. Troye-Blomberg & P. Perlann: IgE elevation and IgE anti-malarial antibodies in *Plasmodium falciparum* malaria: association of high IgE levels with cerebral malaria 284
C. C. Baan, N. E. M. Van Emmerik, A. H. M. M. Balk, W. G. V. Quint, B. Mochtar, N. H. P. M. Jutte, H. G. M. Niesters & W. Weimar: Cytokine mRNA expression in endomyocardial biopsies during acute rejection from human heart transplants 293
Y. Ilan, A. Nagler, D. Shouval, A. Ackerstein, R. Or, J. Kapelushnik, R. Adler & S. Slavin: Development of antibodies to hepatitis B virus surface antigen in bone marrow transplant recipient following treatment with peripheral blood lymphocytes from immunized donors 299
L. Qiao, M. Golling, F. Autschbach, G. Schürann & S. C. Meuer: T cell receptor repertoire and mitotic responses of lamina propria T lymphocytes in inflammatory bowel disease 303
M. Iwano, Y. Akai, Y. Fujii, Y. Dohi, N. Matsuura & K. Dohi: Intraglomerular expression of transforming growth factor-beta 1 (TGF-β1) mRNA in patients with glomerulonephritis: quantitative analysis by competitive polymerase chain reaction 309
H. T. Cook, H. Ebrahim, A. S. Jansen, G. R. Foster, P. Largen & V. Cattell: Expression of the gene for inducible nitric oxide synthase in experimental glomerulonephritis in the rat 315
D. Mitropoulos, S. Kooi, J. Rodriguez-Villaueva & C. D. Platsoucas: Characterization of fresh (uncultured) tumour-infiltrating lymphocytes (TIL) and TIL-derived T cell lines from patients with renal cell carcinoma 321
A. A. Wadee, A. Paterson, K. A. Coplan & S. G. Reddy: HLA expression in hepatocellular carcinoma cell lines 328
P. Nyberg & M. Klockars: Bacillus Calmette–Guérin (BCG) and immunoglobulins synergistically enhance mineral dust-induced production of reactive oxygen metabolites by human monocytes 334

Vol 97 No 3 September 1994

D. MASON: The roles of the hypothalamus and the gastrointestinal tract in the prevention of inflammatory autoimmune disease 339

R. MOUAWAD, M. ICHEN, O. RIXE, A. BENHAMMOUDA, E. VUILLEMIN, M. WEIL, D. KHAYAT & C. SOUBRANE: Study of IL-2 receptor expression after chemoimmunotherapy in patients treated for metastatic malignant melanoma 342

P. DI FRANCESCO, R. GAZIANO, I. A. CASALINUOVO, L. BELOGI, A. T. PALAMARA, C. FAVALLI & E. GARACI: Combined effect of fluconazole and thymosin α1 on systemic candidiasis in mice immunosuppressed by morphine treatments 347

F. BUSEYNE, G. JANVIER, B. FLEURY, D. SCHMIDT & Y. RIVIÈRE: Multispecific and heterogeneous recognition of the gag protein by cytotoxic T lymphocytes (CTL) from HIV-infected patients: factors other than the MHC control the epitopic specificities 353

S. PEIFANG, G. L. PIRA, D. FENOGLIO, S. HARRIS, M. G. COSTA, V. VENTURINO, V. DESSÌ, G. LAYTON, J. LAMAN, J. G. HUISMAN & F. MANCA: Enhanced activation of human T cell clones specific for virus-like particles expressing the HIV V3 loop in the presence of HIV V3 loop-specific polyclonal antibodies 361

C. MÜLLER, S. KUKEL, K. E. SCHNEWEIS & R. BAUER: Anti-lymphocyte antibodies in plasma of HIV-1-infected patients preferentially react with MHC class II-negative T cells and are linked to antibodies against gp41 367

L. T. RATCLIFFE, P. T. LUKEY, C. R. MACKENZIE & S. R. RESS: Reduced NK activity correlates with active disease in HIV$^-$ patients with multidrug-resistant pulmonary tuberculosis 373

A. QUESNEL, PH. MOJA, S. BLANCHE, C. GRISCELLI & C. GENIN: Early impairment of gut mucosal immunity in HIV-1-infected children 380

C. RODRÍGUEZ-GALLEGO, A. ARNAIZ-VUILLENA, A. CORELL, J. MANZANARES, M. TIMÓN, A. PACHECO & J. R. REGUEIRO: Primary T lymphocyte immunodeficiency associated with a selective impairment of CD2, CD3, CD43 (but not CD28)-mediated signal transduction 386

J. W. MANNHALTER, H. M. WOLF, I. HAUBER, M. MIRICKA, H. GADNER & M. M. EIBL: T cell differentiation and generation of the antigen-specific T cell repertoire in man: observations in MHC class II deficiency 392

K. LINDBERG, B. RYNNEL-DAGÖÖ & K.-G. SUNDQVIST: Cytokines in nasopharyngeal secretions; evidence for defective IL-1β production in children with recurrent episodes of acute otitis media 396

B.-N. PHAM, J. F. MOSNIER, F. WALKER, C. NJAPOUM, F. BOUGY, C. DEGOTT, S. ERLINGER, J. H. M. COHEN & F. DEGOS: Flow cytometry CD4$^+$/CD8$^+$ ratio of liver-derived lymphocytes correlates with viral replication in chronic hepatitis B 403

L. C. VAN EMMERIK, E. J. KUIJPER, C. A. P. FIJEN, J. DANKERT & S. THIEL: Binding of mannan-binding protein to various bacterial pathogens of meningitis 411

E. L. MALCHIODI, M. G. CHIARAMONTE, N. J. TARANTO, N. W. ZWIRNER & R. A. MARGNI: Cross-reactivity studies and differential serodiagnosis of human infections caused by *Trypanosoma cruzi* and *Leishmania* spp.; use of immunoblotting and ELISA with a purified antigen (Ag163B6) 417

C. W. DANIELS & M. BELOSEVIC: Serum antibody responses by male and female C57Bl/6 mice infected with *Giardia muris* 424

C. OLIVE, P. A. GATENBY & S. W. SERJEANTSON: Restricted junctional diversity of T cell receptor δ gene rearrangements expressed in systemic lupus erythematosus (SLE) patients 430

P. E. SPRONK, H. BOOTSMA, M. G. HUITEMA, P. C. LIMBURG & C. G. M. KALLENBERG: Levels of soluble VCAM-1, soluble ICAM-1, and soluble E-selectin during disease exacerbations in patients with systemic lupus erythematosus (SLE); a long term prospective study 439

Y. KAWAGUCHI: IL-1α gene expression and protein production by fibroblasts from patients with systemic sclerosis 445

S. HOSAKA, T. AKAHOSHI, C. WADA & H. KONDO: Expression of the chemokine superfamily in rheumatoid arthritis 451

W.-J. MAYET, A. SCHWARTING & K.-H. MEYER ZUM BÜSCHENFELDE: Cytotoxic effects of antibodies to proteinase 3 (C-ANCA) on human endothelial cells 458

J. J. YANG, J. C. JENNETTE & R. J. FALK: Immune complex glomerulonephritis is induced in rats immunized with heterologous myeloperoxidase 466

P. W. MATHIESON, F. J. QASIM, S. THIRU, R. G. OLDOYD & D. B. G. OLIVEIRA: Effects of decomplementation with cobra venom factor on experimental vasculitis 474

P. L. LEENAERTS, R. K. STAD, B. M. HALL, B. J. VAN DAMME, Y. VANRENTERGHEM & M. R. DAHA: Hereditary C6 deficiency in a strain of PVG/c rats 478

M. L. K. TANG, G. VARIGOS & A. S. KEMP: Reduced interferon-gamma (IFN-γ) secretion with increased IFN-γ mRNA expression in atopic dermatitis: evidence for a post-transcriptional defect 483

M. L. K. TANG & A. S. KEMP: Spontaneous expression of IL-4 mRNA in lymphocytes from children with atopic dermatitis 491

C. MCSHARRY, K. ANDERSON, I. C. MCKAY, M. J. COLLOFF, C. FEYERABEND, R. B. WILSON & P. C. WILKINSON: The IgE and IgG antibody responses to aerosols of *Nephrops norvegicus* (prawn) antigens: the association with clinical hypersensitivity and with cigarette smoking 499

P. L. J. WIJNGAARD, A. VAN DER MEULEN, F. H. J. GMELIG MEYLING, N. DE JONGE & HENK-JAN SCHUURMAN: Soluble CD8 and CD25 in serum of patients after heart transplantation 505

P. COMOLI, R. MACCARIO, D. MONTAGNA, M. LABIRIO, M. ZECCA, R. CLEMENTI, F. BONETTI & F. LOCATELLI: Expression of p75 chain of IL-2 receptor in the early immunological reconstitution after allogeneic bone marrow transplantation 510

M. ZAMANI GHABANBASANI, I. BUYSE, E. LEGIUS, R. DECORTE, P. MARYNEN, R. BOUILLON & J.-J. CASSIAN: Possible association of CD3 and CD4 polymorphisms with insulin-dependent diabetes mellitus (IDDM) 517

Y. TAKII, S. HASHIMOTO, T. IIAI, H. WATANABE, K. HATAKEYAMA & T. ABO: Increase in the proportion of granulated CD56$^+$ T cells in patients with malignancy 522
